Legislative and Policy Background

The Town of Claremont Heritage List has been compiled to comply with the requirements of the *Planning and Development (Local Planning Schemes) Regulations 2015*:

8. Heritage list

- (1) The local government must establish and maintain a heritage list to identify places within the Scheme area that are of cultural heritage significance and worthy of built heritage conservation.
- (2) A heritage list established under subclause (1) must set out a description of each place and the reason for its entry on the heritage list.

The Town of Claremont *Town Planning Scheme No. 3* (LPS) states the reasons for inclusion in the Heritage List (previously known as the Heritage Schedule):

Section 78 of LPS3:

- (3) The Council shall include in the Schedule [Heritage List]:

Town of Claremont Heritage List

- (a) any building constructed prior to the year 1910 and which retains substantially its original form and detail as seen from any public place;
- (b) any building constructed during or after the year 1910 and which the Council considers to have high intrinsic architectural merit or to be an outstanding example of its kind or of historical significance;
- (c) buildings, objects or places that the Council considers make a positive contribution to the townscape of the district.

(4) Every building, object or place which is included by the National Trust of Australia (WA) in either the Recorded or the Classified List or which is included by the Australian Heritage Commission in the Register of the National Estate shall be deemed to be included in the Schedule.

The following places comprise the Town of Claremont Heritage List. Note that one place may demonstrate multiple prerequisites for eligibility to be included in the Heritage List.
