I have been serving my community as a Councillor for the last four years. During this time we have delivered to you, among other things, a community centre; a new library; McKenzie Pavilion; continuing upgrading of the Aquatic Centre, other sporting facilities and green spaces, including replanting trees; renewal of playgrounds, footpaths and roads, all while ensuring good governance, strong fiscal management and minimal increases in rates. I believe that community consultation is vital, as is taking action.

On the Lake Claremont Advisory and Foreshore Advisory Committees, WALGA Central Zone.

Formerly President Rottnest Channel Association, Uni Camp for Kids.

I would like to continue working to improving our built community facilities, and outdoor facilities, including dog parks, as I believe these are vital for the residents to form new communities and for mental and physical health. This is the basis for our strong community.

I will work to enhance our community of Claremont.
