

Additional Information

I have lived in Claremont for most of my life and was educated in Claremont and Crawley. I am active in the two local dog parks that I attend. I am also a member of the Friends of Lake Claremont, which cares for and maintains our lake and its surrounds.

I have long been active in serving my community, eg all executive positions Rottneest Channel Swim Association, as well as Race Director; President and Secretary Uni Camp for Kids; member Physiotherapists Board of WA and various sporting committees. I bring this experience to the Council, along with having been a small business owner and Organisational Psychologist.

I am passionate about enhancing our community through well-maintained community facilities and passive recreation areas; community programs, eg concerts in Claremont Park and library events; improving safety, traffic flow, footpaths and roads. I support the ongoing renewal and refurbishment of the Aquatic Centre and other facilities, which are important to our community.

I believe in honesty; transparency; good governance; and maintaining a strong financial position, which results in minimal increases in rates and a better community for all residents. Listening to the community is also very important.

I am keen to continue working for you for the betterment of the Claremont community and I have the passion, commitment, interest and time to do so.
