Important information
Road Resurfacing and Kerb Upgrade

21 September 2026

Dear Resident,

Notification of works

The Town would like to advise the following upcoming project:

Type of works:	Road Resurfacing and Kerb Upgrade
Location:	Gugeri Street (South): Ashton Avenue to Loch Street
Commencement date:	Monday, 05 October 2026
Estimated end date:	Friday, 09 October 2026

Please do not adjust, amend, or move any traffic management arrangements. Removing or ignoring safety signs and traffic cones can lead to confusion, personal injury, and can also cause delays.

Below is the general sequence of events for the works:

- Day 1: Remove old or damaged kerb, and any other paving along the kerb alignment as necessary. This includes removal of some small sections of crossovers at the road edge (typically asphalt and brick paved crossovers). Reticulation will be cut and capped.
- Day 2: Install new kerb (typically Mountable and Semi Mountable). This includes areas in front of crossovers where removed. There will be a minimum 2-day gap following this to allow the concrete kerb to cure.
- Day 3: Road profiling. Please note that there will be limited access to properties during profiling works
- Day 4: lay new asphalt. Please note that there will be limited access to properties during asphalting works
- Day 5: Backfill behind kerbs. Reinstate and repaving crossovers as required. Provide a general clean up inclusive of reticulation repairs.

Kerb upgrade during day 1 and 2 are expected to occur between 7am and 5pm, however road upgrade during day 3 and 4 are expected to occur between 10pm and 6am. While it is inevitable that works of this nature will cause some inconvenience, every effort will be made to ensure that this is kept to a minimum.

The Town will repair any damaged irrigation on verges caused by the works and will organise testing of systems once works are complete. Please ensure you contact the Town within one month of the completion date if any issues have yet to be addressed regarding damage.

While every effort will be made to commence and complete the works within the dates specified above, the program may be subject to change due to weather conditions, site constraints, or contractor availability. Should any delays occur, updates will be provided on the Town's website. Please scan the QR code above for the latest project information and project schedule updates.

An *information sheet* has been attached for your viewing, which the Town hopes will answer any queries you have whilst the works are occurring.

If you have any questions regarding this project or would like further information, please contact me on 0409 725 062.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Vinay Gupta', with a stylized flourish at the end.
