27 April 2027

Bulk waste is collected by multiple trucks. It's important that you **DO NOT** place out additional waste once part of your waste has been collected, as the truck that collects that type of waste has already been.

Green Waste Collections

Up to one cubic metre of the following items will be collected:

✓ Bags of leaves and small pieces of vegetation

✓ Branches, cuttings and leaves
(max length 1.5 metres and max diameter 150mm)

The following items will NOT be collected:

✗ Branches over 1.5 metres in length

✗ Branches over 200mm in diameter

✗ Bulk or household waste

✗ Leaves in plastic bags

✗ Large tree trunks or stumps

Greenwaste bags for small cuttings can be purchased from the Town's Administration building for \$6.00 each*

*Correct at time of printing. Price is subject to change.

Bulk Waste Collections

The following items will be collected:

✓ General junk. Items longer than 1.2 metres in length need to be dismantled (eg. trampolines, playground equipment)

✓ Old furniture

✓ Refrigerators (doors removed) and other whitegoods

✓ Stoves (doors removed)

The following items will NOT be collected:

✗ Asbestos and cement products

✗ Bricks, tiles, concrete, sand, rubble

✗ Building materials and timber

✗ Car batteries

✗ E-waste (eg. computers and TVs)

✗ Flammable liquids and oil

✗ Foodstuffs (household food waste)

✗ Gas bottles

✗ Glass (eg. panes, mirrors, tabletops)
✗ Green waste
✗ Mattresses
✗ Motor vehicles (whole or parts)
✗ Paint and chemicals

Many of these items can be taken to the West Metro Recycling Centre instead – some free and some for a fee.

Check the previous page for details.

WASTE TO ENERGY

From mid-2026, waste to energy is replacing landfill for general waste.

Waste to energy is a proven technology that recovers energy from waste that can't be recycled or composted. For households, this is the contents of your red-lidded bin.

How is waste to energy better than landfill?

- It recovers energy from the waste in a controlled environment
- It avoids generation of methane, a powerful greenhouse gas, which occurs when organic material is buried in landfill
- It extracts and recovers metals, which would be wasted in landfill

How will waste to energy affect me?

Waste to energy doesn't change how you sort your waste! It's still important to be a GREAT Sort and do better than the general waste bin in the first place.

How to avoid creating waste

Get to know your local bulk food store • Love your leftovers • Remember your reusable coffee cup • Bring a reusable container for leftovers when you go out to dinner • Choose loose fruit and veg
