Town of Claremont  
Important information inside  
Limestone Path Upgrade at Lake Claremont

25 January 2024

Dear Resident,

Limestone Path Maintenance - Lake Claremont (Strickland Street South)

The Town would like to advise that limestone path maintenance works are programmed to be undertaken on Thursday 8th and Friday 9th February 2024. The goal is to complete these minor works on these dates, weather permitting. February was targeted to ensure that Snake-necked turtle nesting was not impacted and to avoid erosion from heavy winter rainfall.

The purpose of this maintenance is to make the ground surface safer for pedestrians. The pathway in this area is currently unstable and sandy.

Below is the proposed sequence of events:

- Temporary fencing and pedestrian detours will be in place according to the attached map
- Material to infill voids will be placed at Strickland Street cul-de-sac
- A small skid steer, roller and compactor will be used to top up and secure the existing tracks
- Temporary fencing will be removed, and pathways reopened

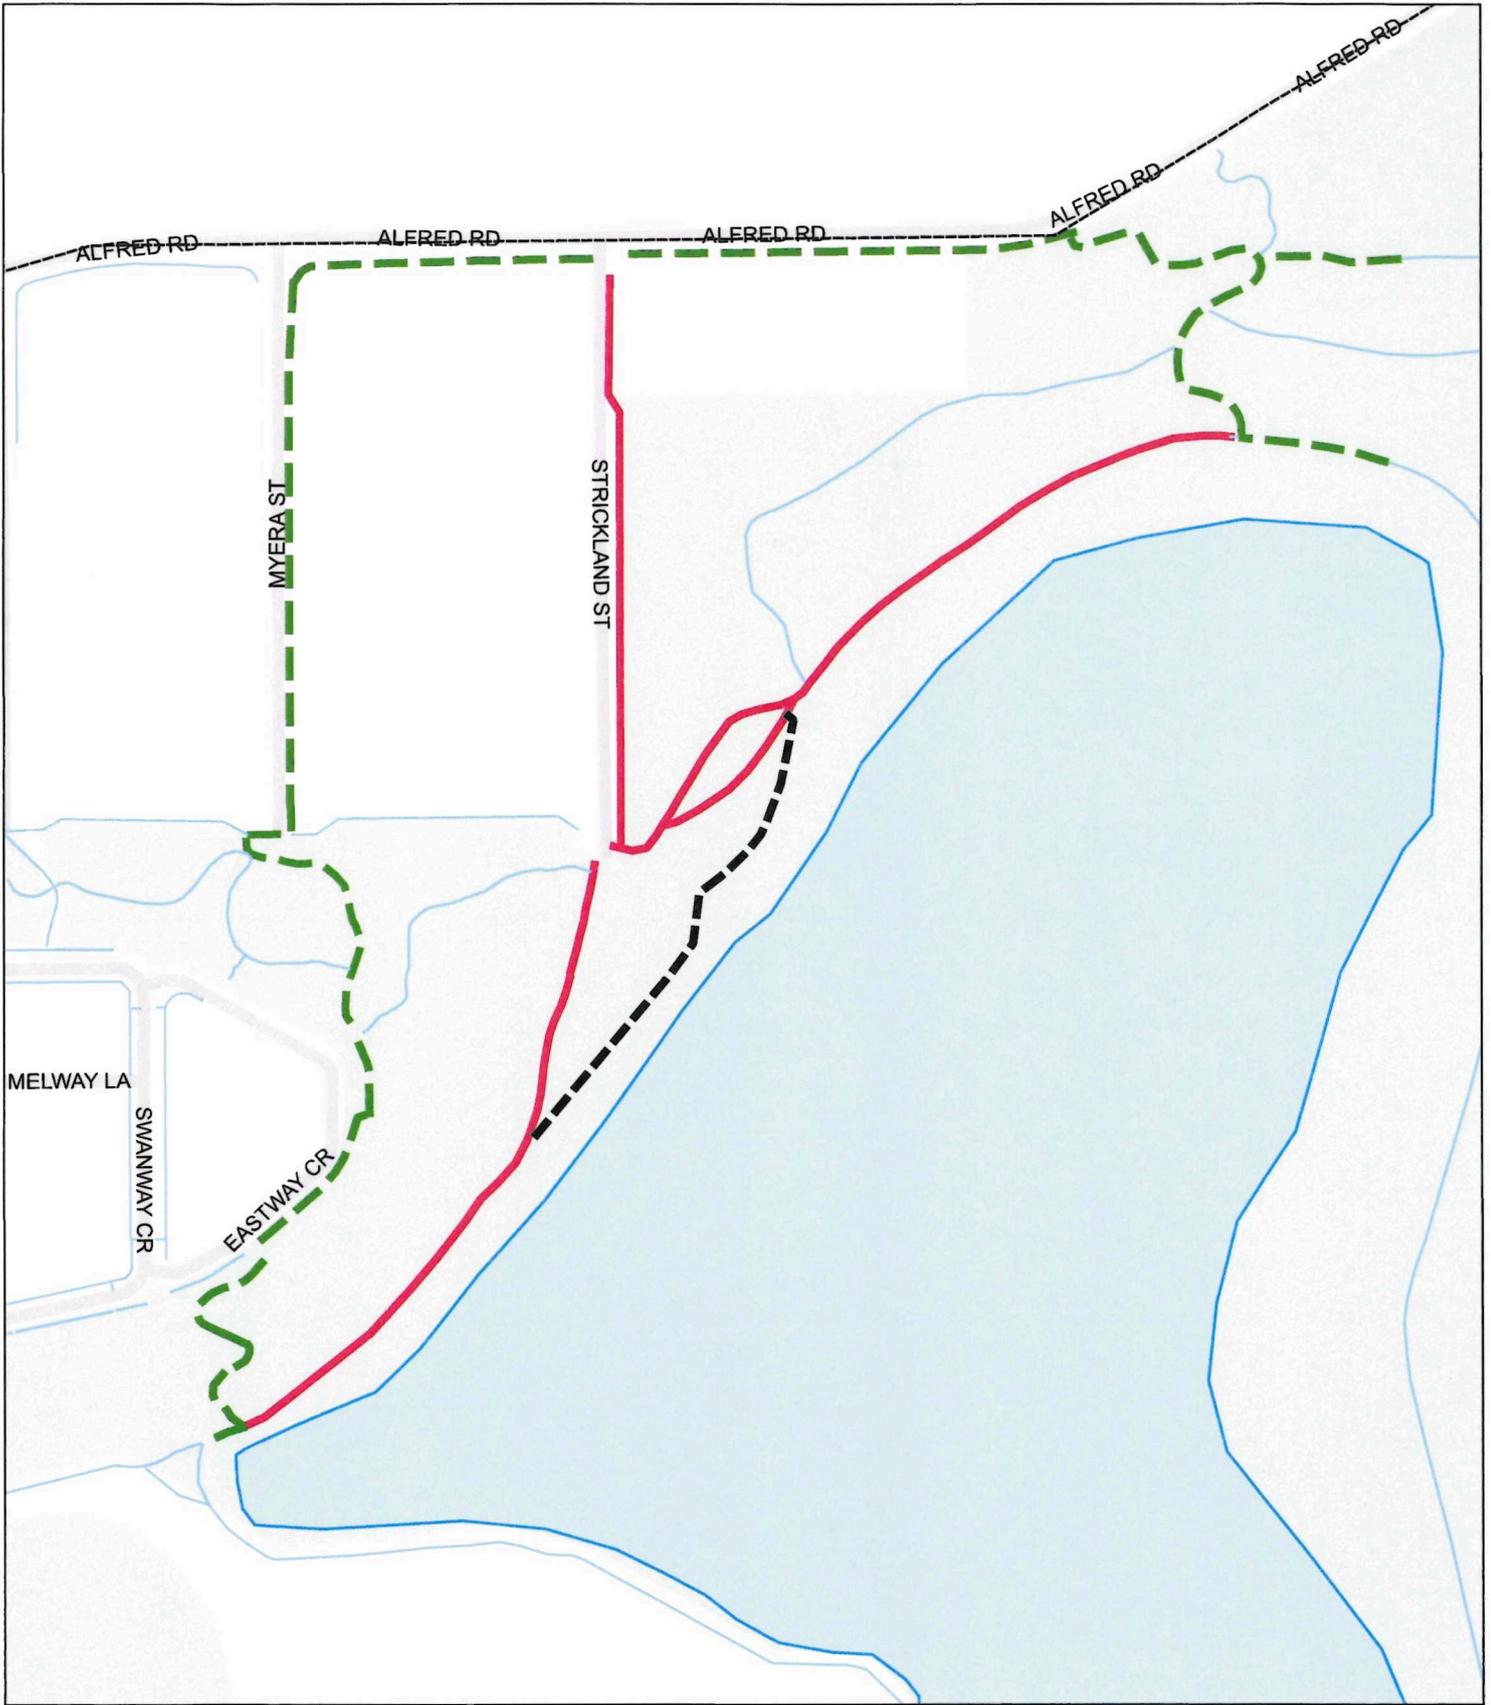

Works are expected to occur during working hours, between 7am and 5pm on weekdays. While it is inevitable that works of this nature will cause some inconvenience, every effort will be made to ensure that this is kept to a minimum.

If you have any questions regarding this project or would like further information, please contact me on 9285 4300.

Yours sincerely

Cloe Dolan  
Manager Parks and Environment
